Science

Properties and Changes of Materials

I will:

Know that some materials will dissolve in liquid to form a solution.
Use knowledge of solids, liquids and gases to decide how mixtures and solutions might be separated.
Explain that some changes form new materials and that these changes are not usually reversible.
Identify when a change caused by heating or cooling is reversible or irreversible.
Investigate the materials needed for something to burn and the new materials formed by burning.
Compare and group together everyday materials on the basis of their properties.

Design Technology

I will: **(Programming Pioneers)**

Explain how computers and computer programs are used in a variety of products
Develop ideas for a product with an embedded computer system that controls
Develop, model and communicate ideas for an embedded system which monitors and controls a door, a room or both.
Develop ideas for a product and start to write programs to monitor and control them.

RE

What kind of world did Jesus want?

I will:

Examine Jesus' teaching about the two greatest commandments—to love God and to love your neighbour.
Explore ways in which Christians try to use Jesus' words as their 'foundations for living'.
Look at ways in which people show generosity to those in need.

PSHE/ESR
