## Parking at School and Child Safety

We would like to remind parents not to enter the staff car park to drop or collect children unless you have prior permission. We also have more cars and younger children at certain times of the week due to the new morning playgroup sessions and we need to ensure our children are safe when they come onto the school grounds. We are therefore putting the following measures in place to reduce risk :

- Children must be handed over to a member of staff in the playground or the main reception. Please do not allow your children to come in unsupervised.
- Please use the pedestrian gate to come into school. The main gates, if open are to allow vehicles to enter the car park. These gates will be closed whenever possible.
- If the layby is full, please wait until it is safe to park. We are always happy to keep your children safe in school until you can pick them up.

*If you have any questions or suggestions we are always happy to speak to you.*

*Thank you for your continued support.*

**Brett Stevenson, Head Teacher**

***Please remember to use the pedestrian gate!***
