Geography

We will Use maps, atlases, globes and digital/computer mapping to locate Greece and describe it's features.

Art and design

We will learn about great artists, architects and designers in history. We will be looking at Ancient Greek patterns and sculptures.

Science

In science we will be studying forces. We will be able to explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object. We will identify the effects of air resistance, water resistance and friction, that act between moving surfaces. We will recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect.

PE

We will be working alongside Gloucester Rugby Club this term playing tag rugby. This term we are focusing on the BRAVE programme.

Children will be introduced to the concept of democracy. They will create their own bill for proposed legislation and create an animation and an endorsement to support their bill.
